

One Book Fair eWallet, Fair after Fair

Introducing an easier way for families to manage eWallet. Once you create an eWallet for your child, it remains in your Scholastic account from year to year, so you can use the same eWallet at future Fairs. Simply update your child's grade and teacher each school year. New features make it more convenient to access your eWallet balance anytime.

You can transfer funds between children, shop Scholastic online, including book clubs, or contribute any amount to your school's Share the Fair account. After the Fair, you'll receive an email reminder showing your child's remaining balance. When the next Book Fair arrives, sign into your Scholastic account to add funds or invite family and friends to contribute.

eWallet makes shopping the Fair and managing remaining funds easier than ever. Find your school's Book Fair homepage to get started. [scholastic.com/fair](https://www.scholastic.com/fair).
